

Alvarion WiMAX Solution and Portfolio

Yeudiel Valdivia
Pre-Sales Manager

March 2009

Safe Harbor

This presentation contains forward -looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Alvarion's management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward -looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: potential impact on our business of the spread of the U.S. credit crisis and subsequent predictions of, and potential for, global recession, the failure of the market for WIMAX products to develop as anticipated; Alvarion's inability to capture market share in the expected growth of the WIMAX market as anticipated, due to, among other things, competitive reasons or failure to execute in our sales, marketing or manufacturing objectives; inability to further identify, develop and achieve success for new products, services and technologies; increased competition and its effect on pricing, spending, third-party relationships and revenues; as well as the inability to establish and maintain relationships with commerce, advertising, marketing, and technology providers and other risks detailed from time to time in the Company's Annual Report Risk Factors section as well as in other filings with the Securities and Exchange Commission.

Agenda

- **Alvarion at a Glance**
- **The Environment**
- **Product Portfolio**
- **Alvarion WiMAX Solution**
- **Success Stories**

Alvarion at a Glance

Highlights

- WiMAX pure player
- OPEN WiMAX end-to-end offering
- Innovation in broadband wireless IP technologies
- World's preferred WiMAX choice

Source: Sky Light Research, Sept 2008

Facts and Figures

- Founded: 1992
- Employees: 1200, including 500+ R&D engineers
- International presence: over 25 offices worldwide
- Publicly-traded (NASDAQ: ALV)
- 225+ commercial WiMAX deployments
- 50+ mobile WiMAX deployments; 30+ customer trials (Q2/08)
- 7+ years of WiMAX experience
- 15+ years of broadband wireless IP experience

Mission and Strategy

Mission

Be a dominant global player in the broadband wireless industry

Strategy

Maintain broadband wireless access market leadership and growth

Leverage on assets to lead the WiMAX Personal Broadband market

Company Values

- **Do the right thing right**
- **Respect the individual**
- **Excellence**
- **Customer-centric focus**
- **Strength of purpose**

The Environment

The Business of WiMAX (1)

Personal Broadband

Where...

Developed markets

High broadband penetration

What...

Broadband anywhere,
any time, and on my
devices

Primary Broadband and Voice Services

Where...

Emerging markets
Rural and urban regions
in developed markets

What...

High speed Internet and
voice services

Primary & Personal Broadband

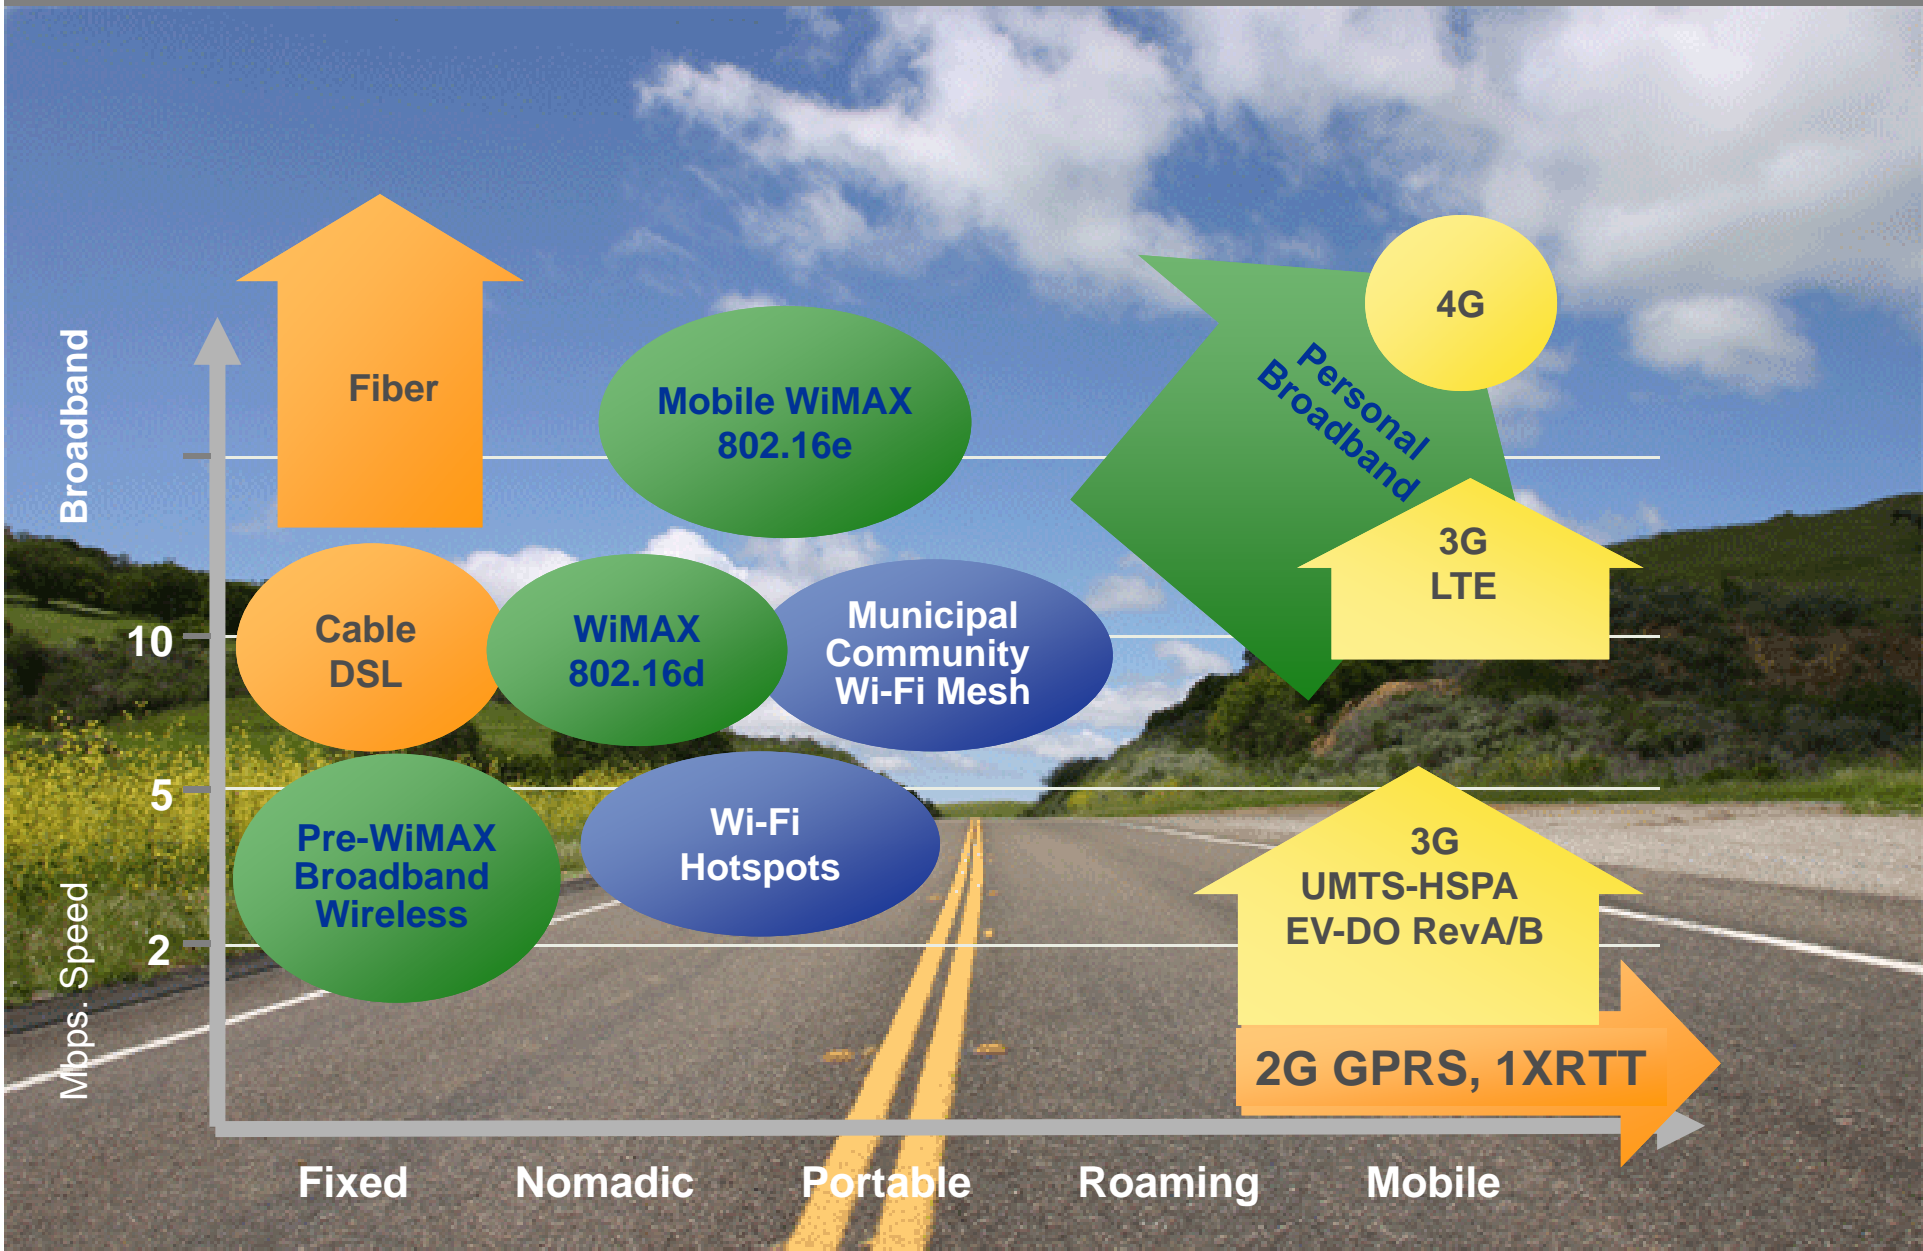

Core Technology: WiMAX
Application: Personal Broadband
New Market: Mature Broadband Markets and Developed regions
Frequencies: 2.5 GHz, 2.3 GHz, 3.5 GHz

Core Technology: WiMAX
Application: Primary Broadband
Existing Market: Emerging Broadband Markets and Developing regions
Frequencies: 3.5 GHz, 2.5 GHz, 2.3 GHz

Comprehensive Suite of Services

Support

- Training
- Operations
- Maintenance
- Optimization
- Security
- Network management

Integration

- Planning
- Design
- Installation
- Commissioning
- Turnkey services
- Program management

Solutions

- Vendor comparison and selection
- Integration
- Delivery
- Deployment

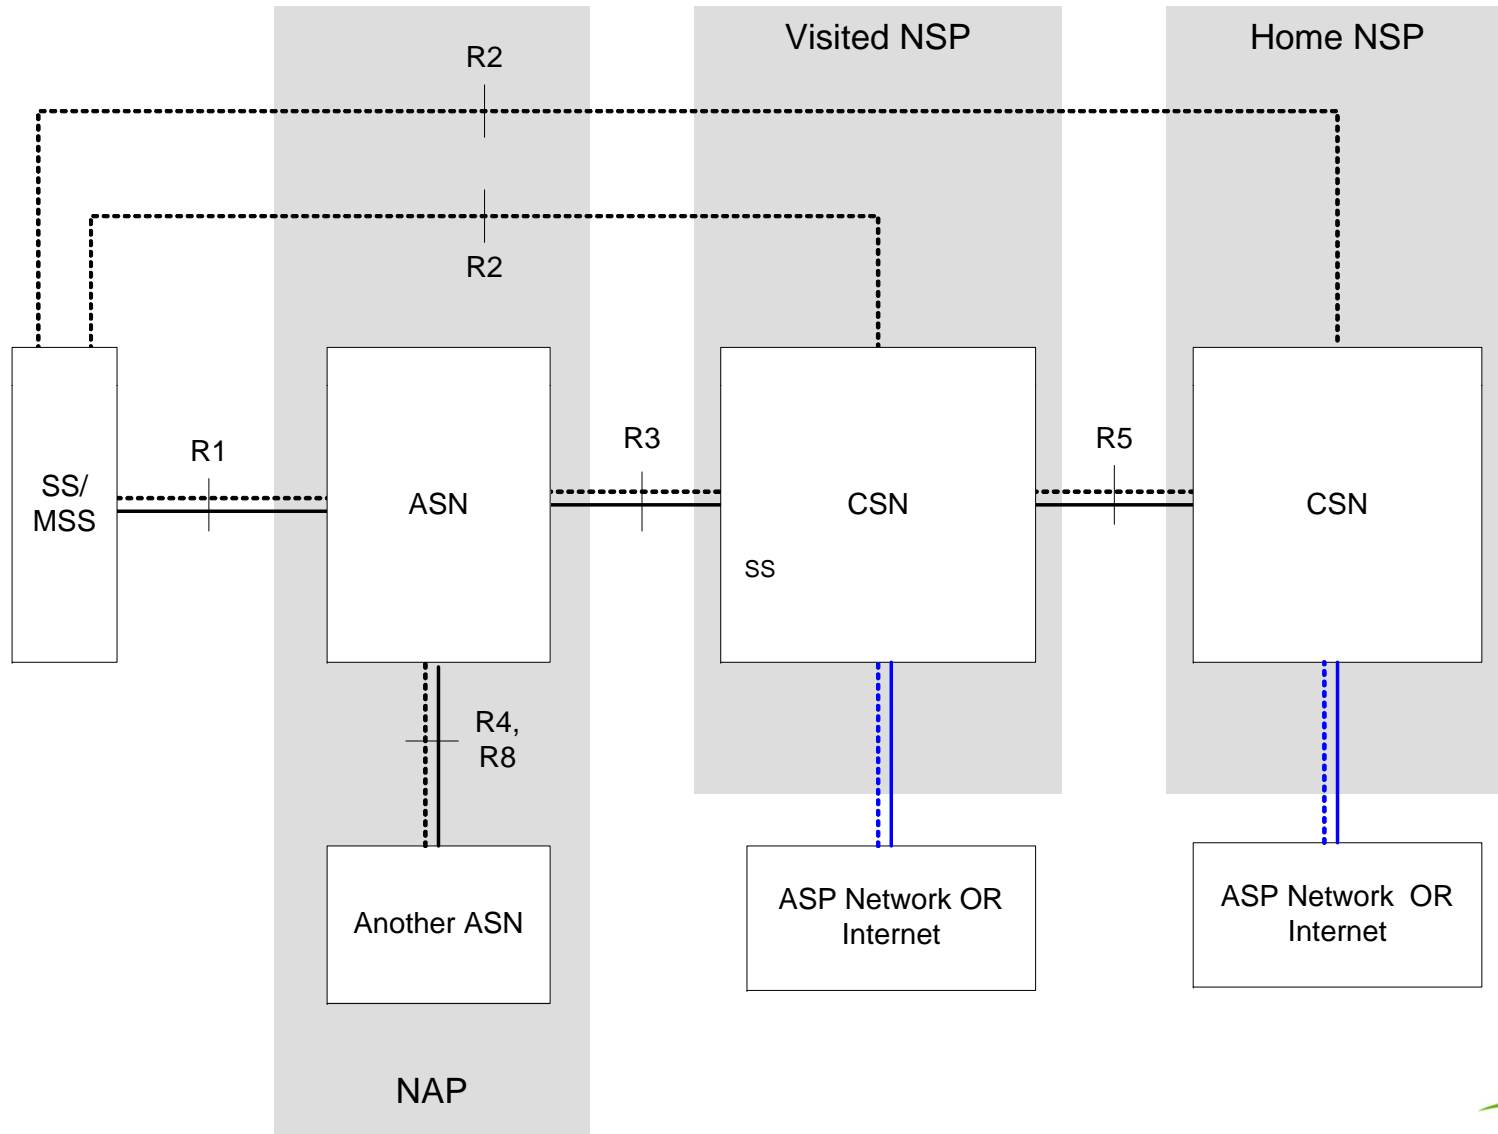

Business

- Business case and model
- Option selection
- CAPEX and OPEX optimization
- Rollout plan

OPEN WiMAX - In open architectures service providers choose the combination of vendors and partners that best fit their specific requirements

- **Enables operators to choose best of breed solutions**
 - Best-in-class products
 - Best-fit products and solutions
 - Limitless mix & match combinations
- **OPEN WiMAX solution delivered by pure-play vendor alliances**
 - Leverage expertise of each pure-play vendor
 - Winning teaming and cooperation agreements

- **Three generic profiles in WIMAX NWG**
- **Profile A (removed by the WiMAX Forum)**
 - **Decomposition of BS and ASN GW (with R6)**
 - **Centralized ASN GW only**
 - **Handover Control (RRM) in ASN GW**
- **Profile B**
 - **BS and ASN GW are not decomposed (R6 is not exposed)**
 - **Probably may work for Centralized and Distributed**
- **Profile C – Supported by Alvarion**
 - **Decomposition of BS and ASN GW (with R6)**
 - **Centralized and Distributed ASN GW**
 - **Handover Control (RRM) in BS; ASN GW is agnostic to the radio intelligence**

24 Comparing WiMAX Profiles

**OPEN
WiMAX™
(Profile C)**

Clearly defined separation between Base-Station (RRM) and ASN-GW (networking) entities (functionality)

Profile B

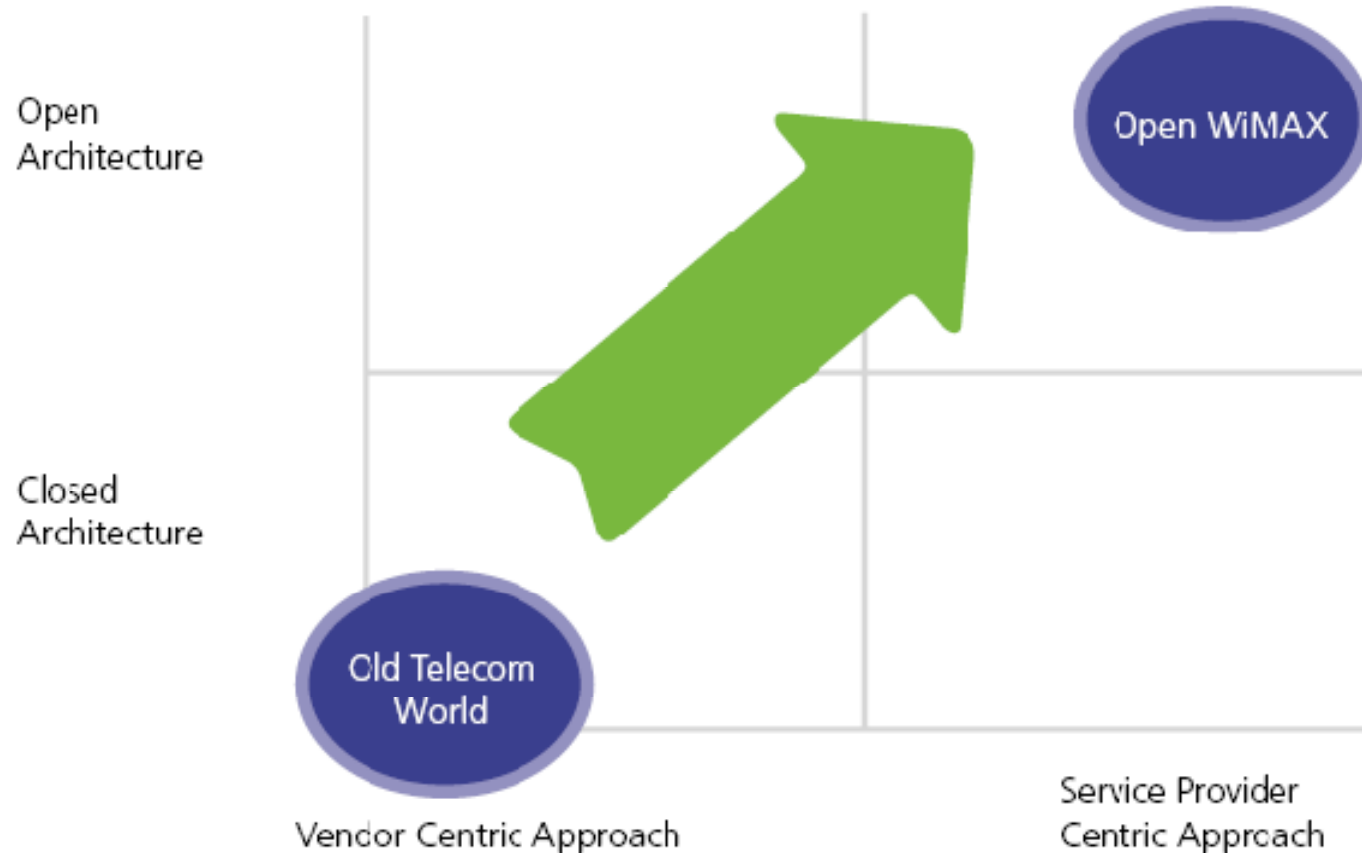

“black box”
Unknown separation between Base-Station and ASN-GW entities

Profile A was canceled by WiMAX Forum

Disruptive Approach of OPEN WiMAX

25

- **OPEN WiMAX delivers Operator Centric Approach**
- **End of vendor-centric era in telecommunications**
- **Open architecture guarantees interoperability among vendors**

**Service Enabling
Platforms**

**Radio Access
Network
Equipment**

4Motion is a complete OPEN™ WiMAX end-to-end solution

- WiMAX IEEE 802.16e-2005 Certified Wave II
- Employs an open, standard all-IP architecture enabling a Best-of-Breed multi-vendor solution
- Delivery of mobile and fixed video, voice, and data services
- Supports the full range of business, residential, and Personal Broadband services

Core network equipment

**Accounting Authentication
And Authorization Server**

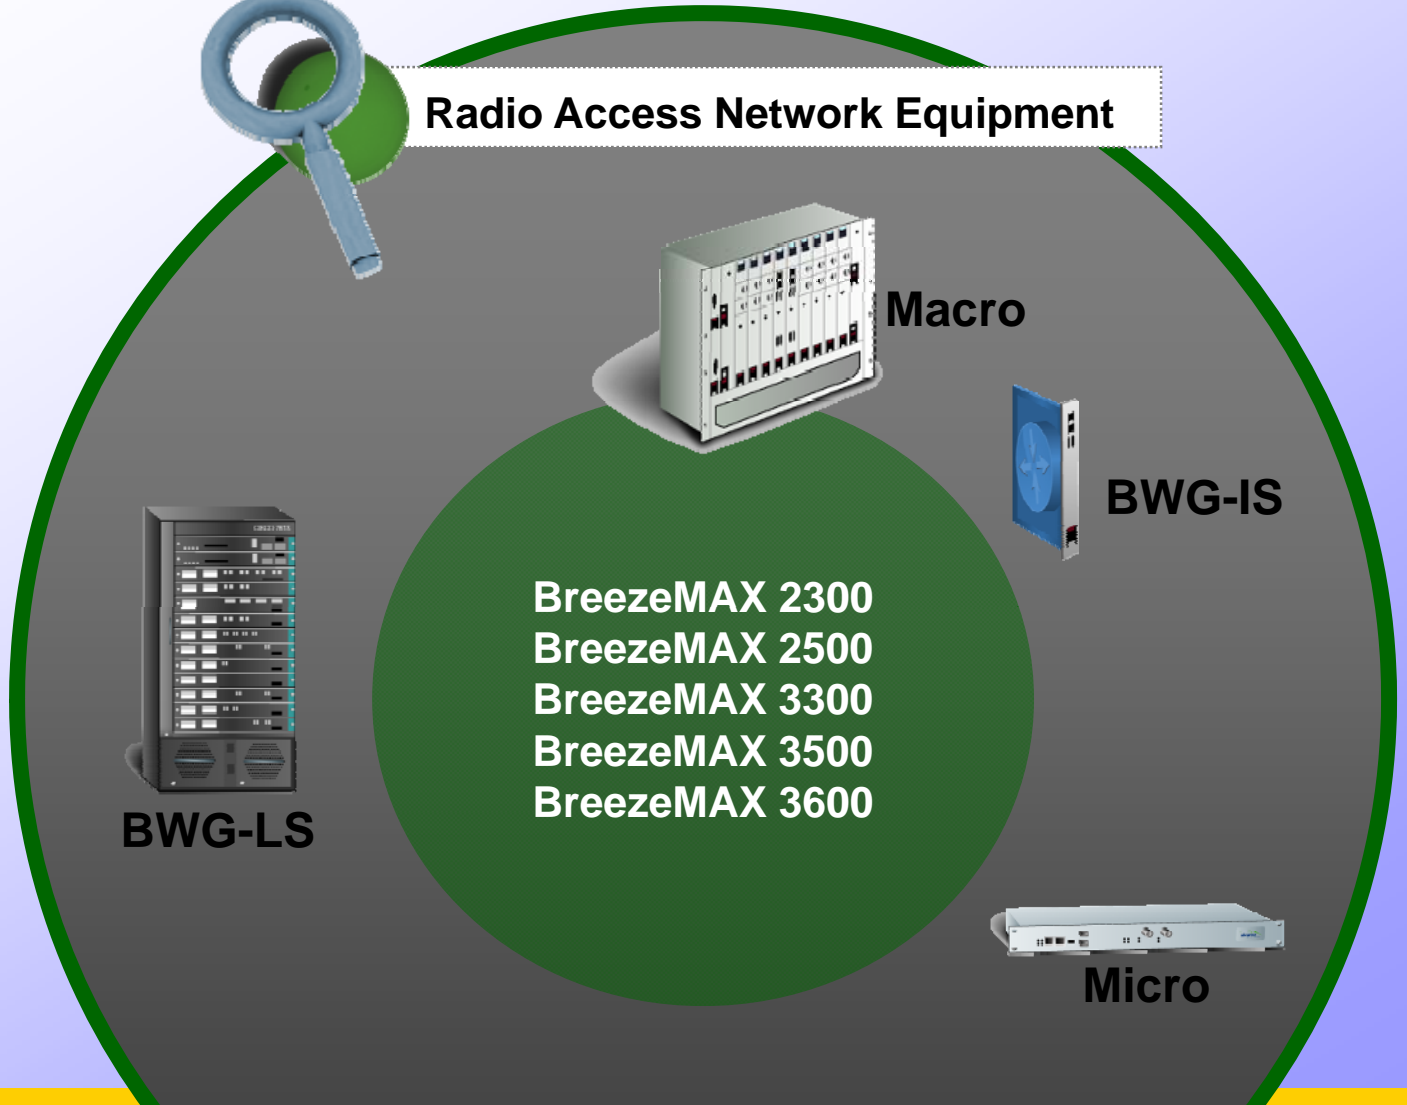

Home Agent Server

**AlvariSTAR™ Network
Management System**

4Motion – OPEN™ WiMAX Architecture

34

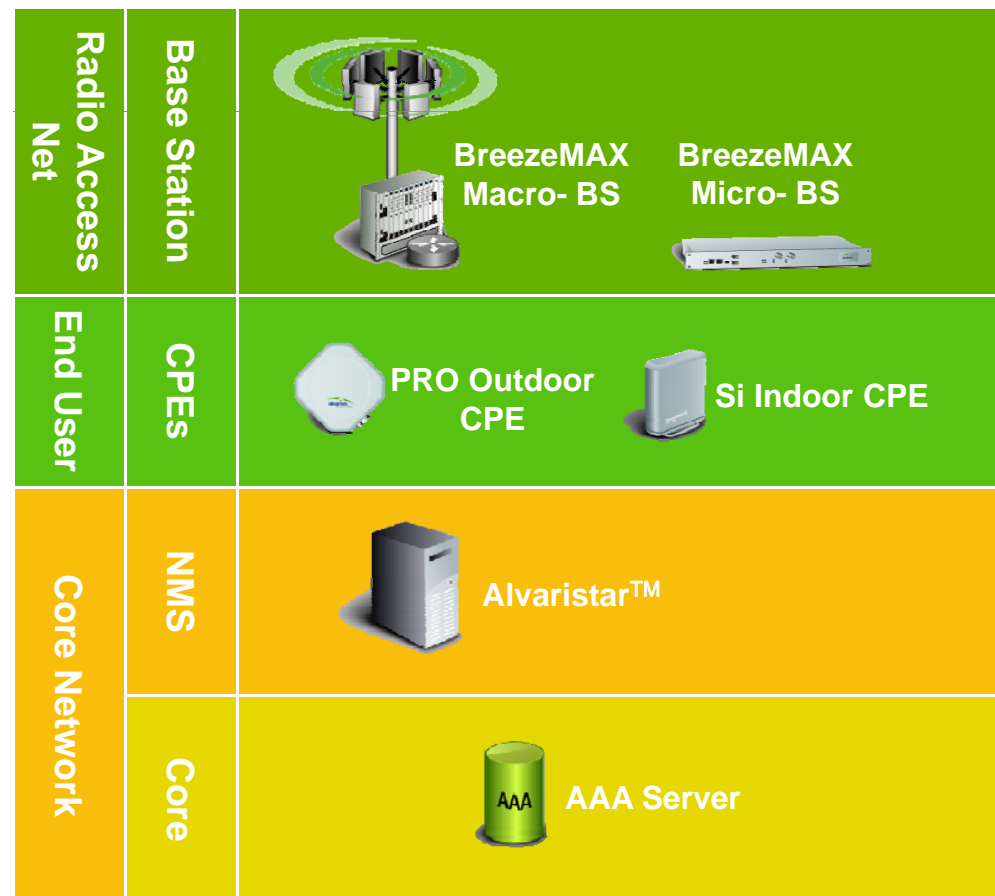

3

Phase I. Fixed and Nomadic

- The solutions in year 2007 address fixed and nomadic services
- Solutions comprised of the following elements:

- RAN (BreezeMAX):
 - Macro and Micro BST
- End User Equipment
 - Variety of outdoor and indoor CPEs
- Network main components:
 - External AAA Server
 - AlvariSTAR

4Motion 802.16e
pre-certified solution,
based on our
BreezeMAX mature
BST platform

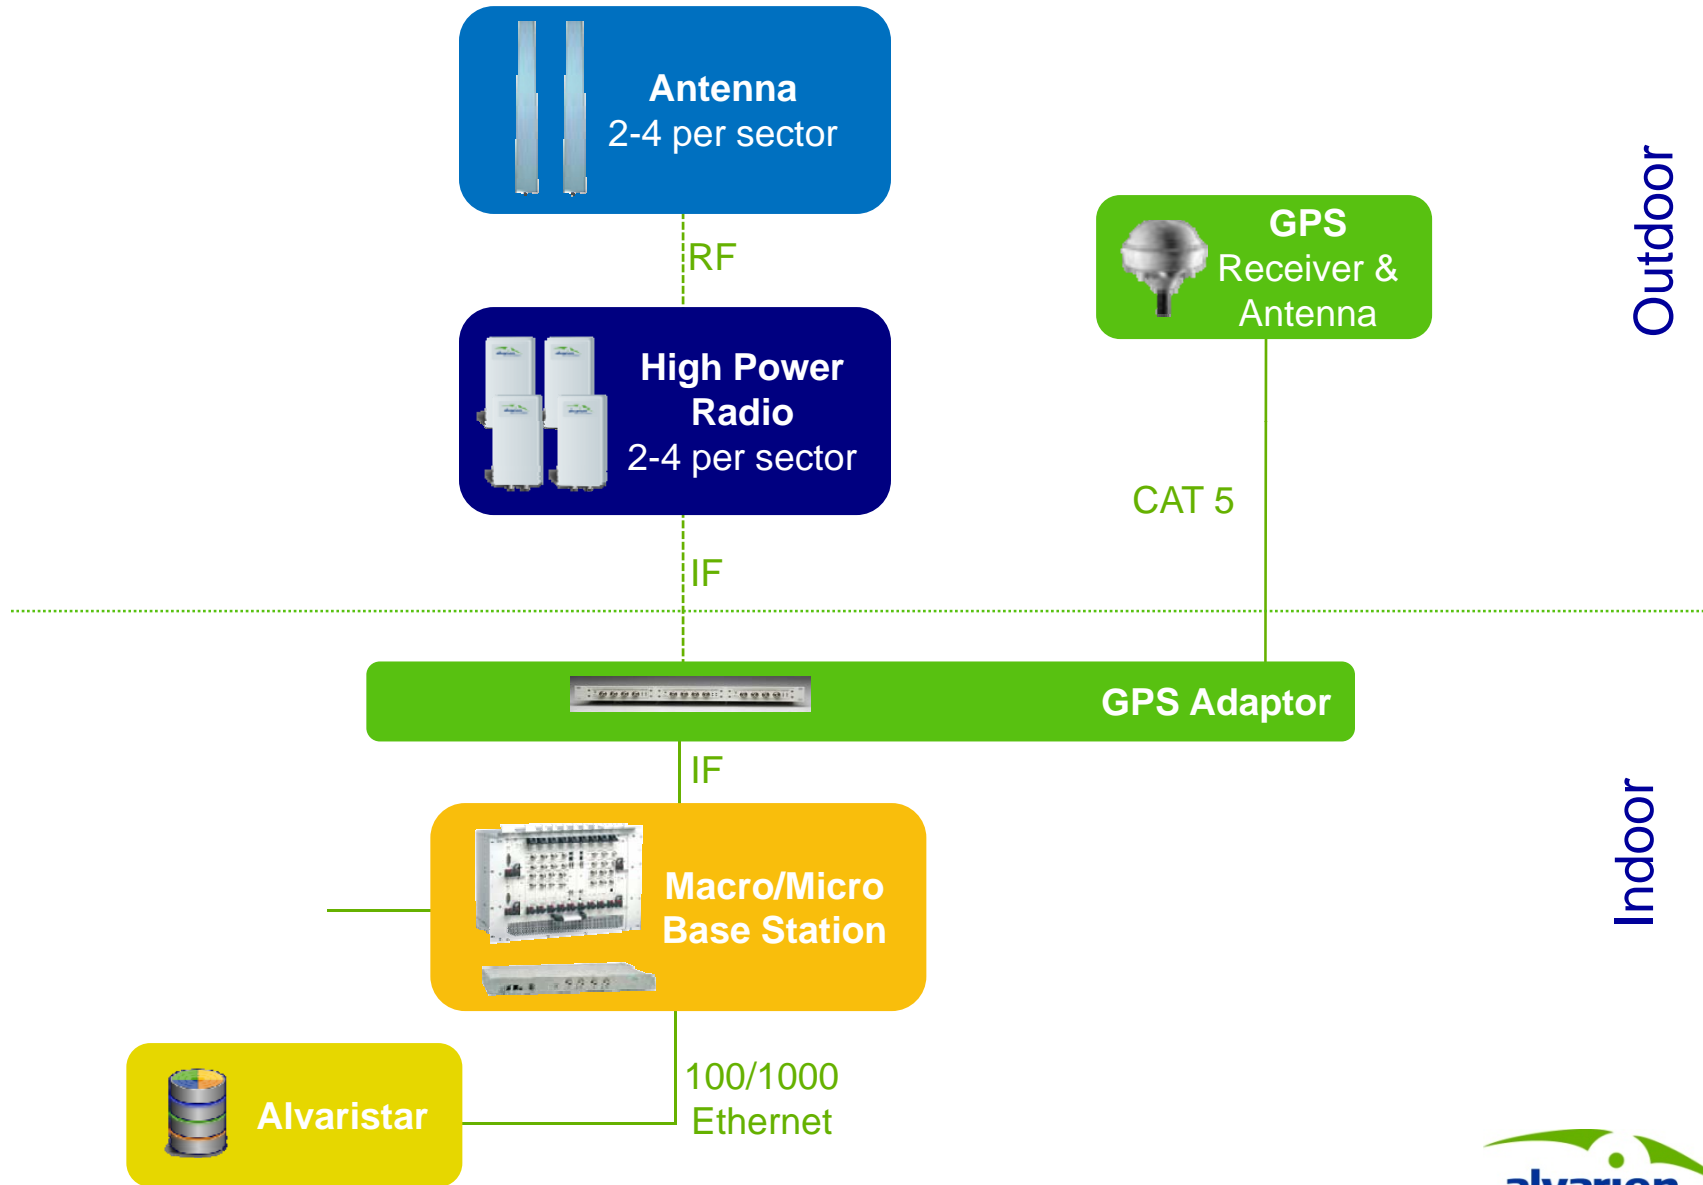

Operating in all standard
WiMAX frequencies
- 2.3, 2.5, 3.3, 3.5GHz,
3.6GHz

Support nomadic
services using
WiMAX core
network

Multi application / service
platform
Multiple QoS levels

Superior Coverage
and capacity

RAN – Base Station Installation Example

- **Suited for dense Urban/Suburban deployments**
- **Modular, supporting up to:**
 - 3 sectors with two carriers or
6 sectors with one carrier
- **4 channel AU-IDU**
- **Support 2nd and 4th order diversity**
- **NPU for GPS support**
- **Scalable, Carrier class platform**
 - Hot swappable functionality
 - Centralized management
- **Standard based Radius interface for operation with AAA server**
- **Local and remote management**

- Suits for low dense rural deployments
- Based on similar hardware components and provides similar functionality as the Modular BST
- A compact 1U 19” shelf
- Single carrier for low density rural area
 - Single sector using directional antenna or OMNI antenna
- Support 2nd and 4th order diversity
- Can operate with all types of HP-ODUs
- Standard based Radius interface for operation with AAA server
- Local and remote management

A man in a dark suit and tie is riding a silver scooter on a paved road. The background is a bright, hazy sunset or sunrise over a landscape. A horizontal yellow bar is overlaid across the middle of the image, containing the number '4' in a white circle on the left and the text 'Phase II. Portable and Mobile Services' in white. The bottom right corner of the image has the number '41' in white.

4

Phase II. Portable and Mobile Services

Personal Broadband for you, anytime, anywhere

- **Complete end-to-end IEEE 802.16 solutions**
 - Fixed/Nomadic/Portable/Mobile WiMAX services (Quadruple Play)
 - Fully distributed all-IP architecture
 - Open architecture and interfaces
 - Advanced access technologies
 - Flexible and low cost
- **BreezeMAX 4Motion: High Power, Smart BTS & CPE, WiMAX Compatible - Proven infrastructure sequel of Breezemax**
- **Featuring support**
 - Software defined radios (SDR), scalable OFDMA,
 - smart antennas, MIMO & dynamic bandwidth allocation
- **Delivered by Alvarion and its Technology partners**

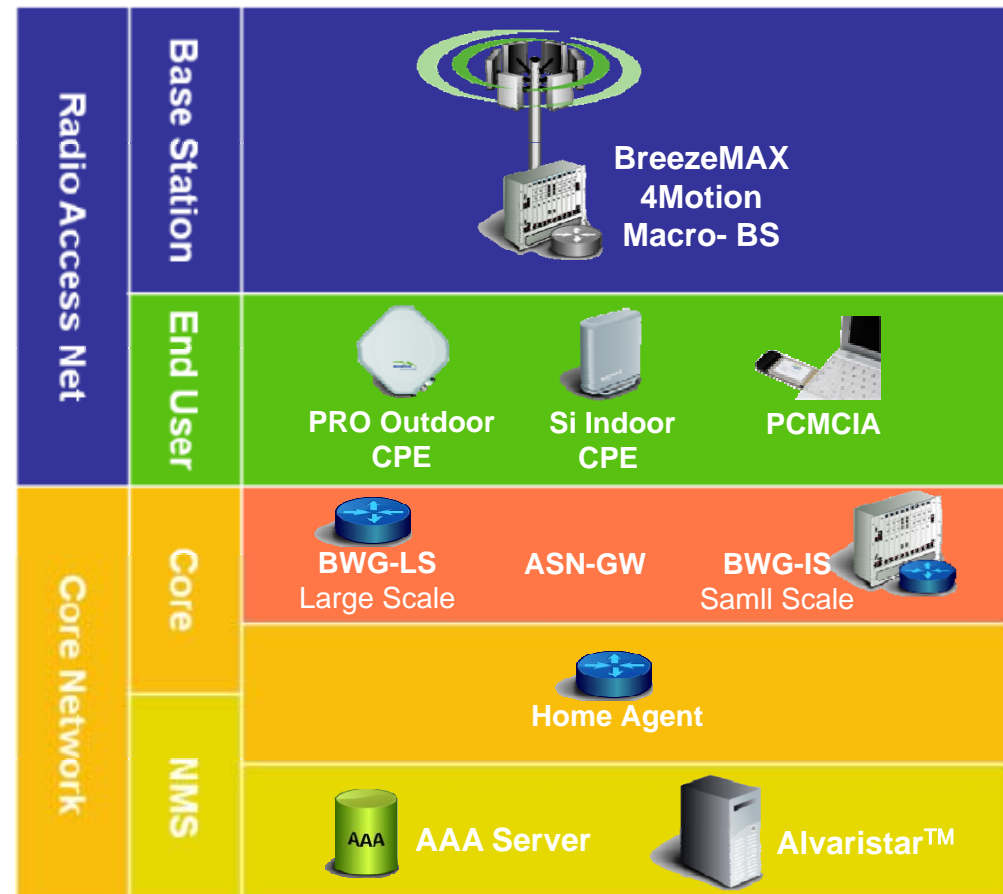

- **The solution in H1/09 addresses Mobile solutions**

- Greenfield mobile broadband operators
- Early adopters of Mobile WiMAX technology

- **Comprised of the following elements:**

- RAN (BreezeMAX-4M):
 - Macro BST
 - New Antenna Arrays [Tx+Rx] – 2+4, 4+4
- CPE
 - Fix ODU CPE and SI
 - Mobile Station (MS) – PCMCIA, Handset
- Network main components:
 - ASN GW (Network Gateway)
 - Small Scale Integrated in BMAX-4M
 - Large Scale third partners
 - AAA Server
 - Integrated or external
 - Home Agent (Roaming Agent)
 - AlvariSTAR

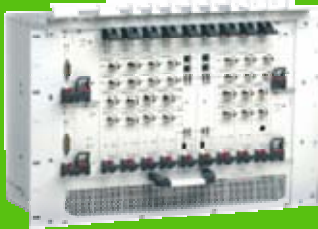

- **Support Mobile WiMAX service**
 - Intra and Inter BST Handoff
- **4Motion 802.16e Certified Solution**
 - Can upgrade 4Motion TDD BST
- **OPEN™ WiMAX architecture**
 - Standard WiMAX Interfaces offers Best of Breed Network Core devices
- **World Wide WiMAX frequencies coverage (masks)**
 - 2.3, 2.5, and 3.5GHz frequencies
 - At 5,7,10Mhz
- **Investment protection**
 - Migration path using variety of CPEs, upgradeable to 802.16e
 - Future proof migration to AAS technologies (MIMO, Beam Forming)

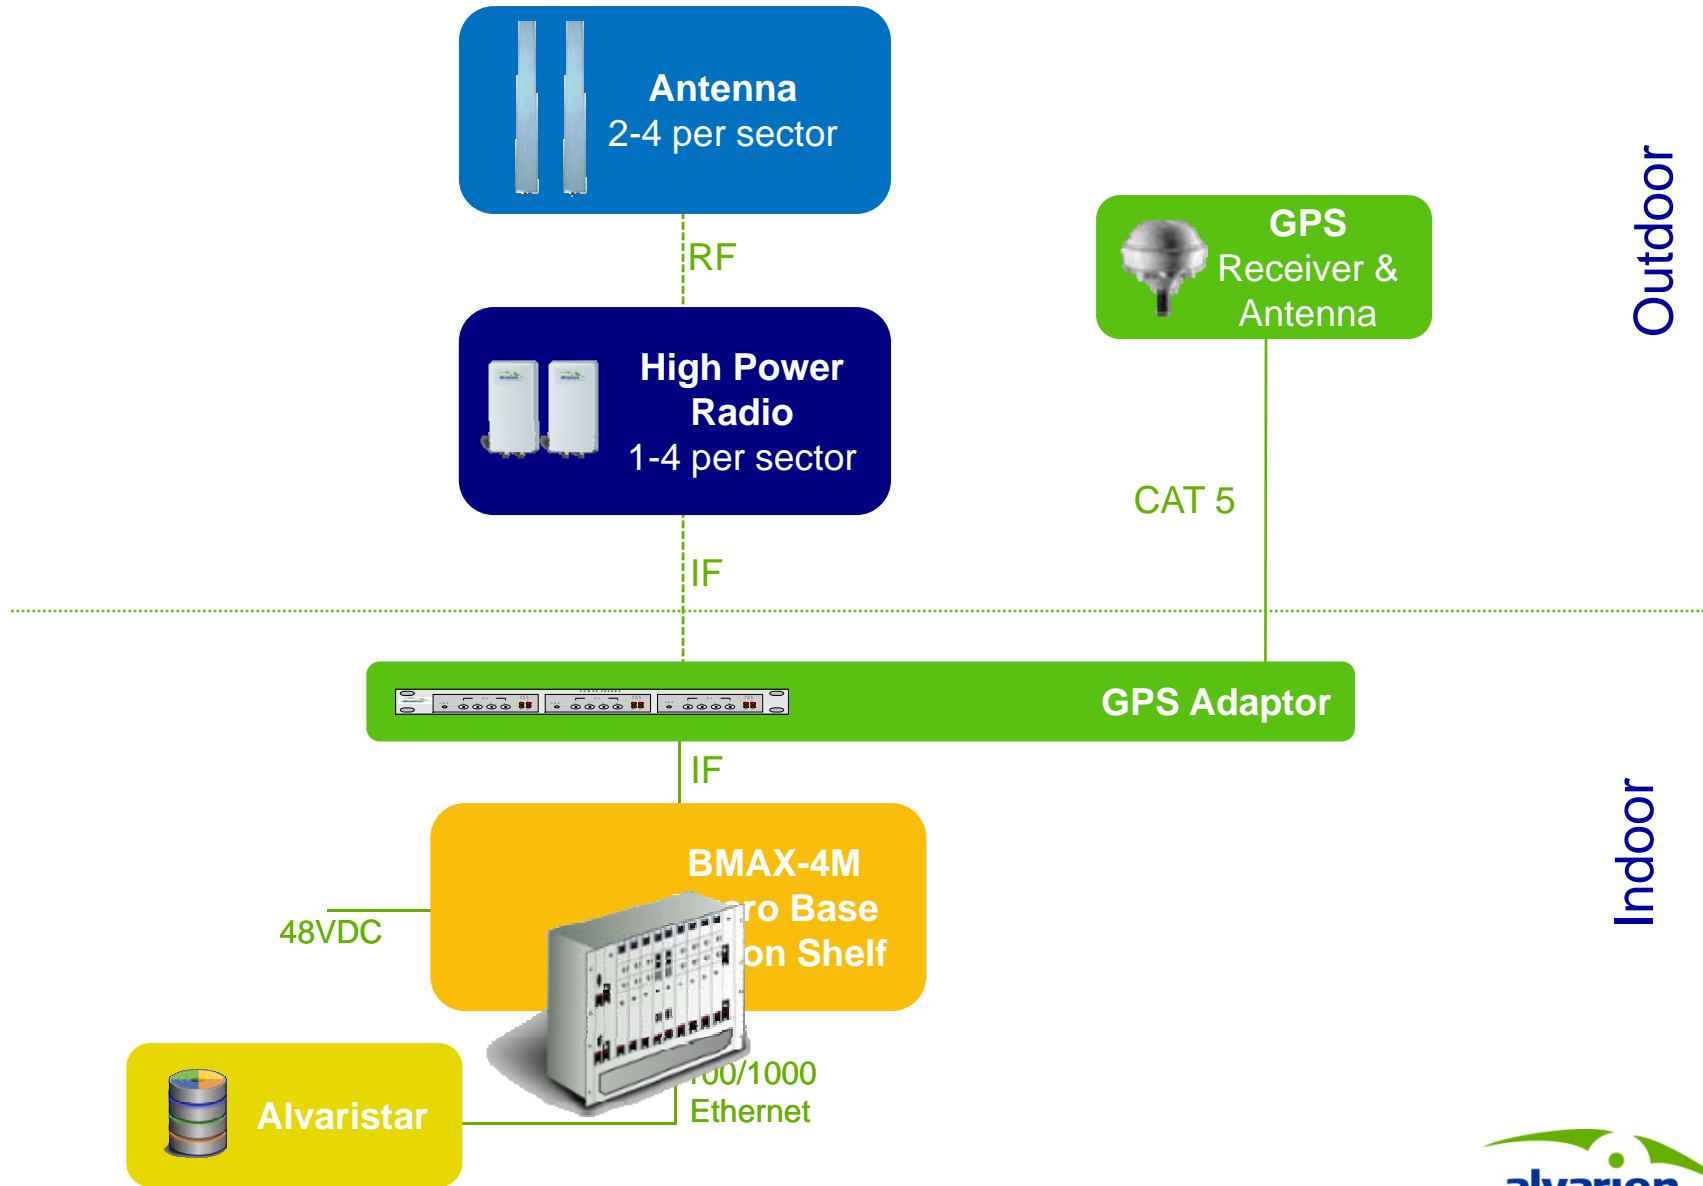

45 Network Building Blocks

Component	Description		
ASN GW	<ul style="list-style-type: none"> ○ Network Gateway ○ Enables Mobility 	 <p data-bbox="1354 673 1753 755">BMAX-4M with BWG-IS Integrated ASN-GW</p>	
BWG-IS	<ul style="list-style-type: none"> ○ Small Scale ○ Integrated into BreezMAX BST 		
BWG-LS	<ul style="list-style-type: none"> ○ Large Scale ASN-GW ○ From IOT partners (i.e. Starent, Cisco, Hitachi) 	 <p data-bbox="1207 1299 1585 1469">BWG-LS Cisco 7600 Multiple ASN GW with Integrated HA and Integrated AAA</p>	 <p data-bbox="1627 1299 1900 1469">Third Party AAA From Bridgewater For BWG-IS</p>
Home Agent (HA)	<ul style="list-style-type: none"> ○ Enables Roaming between WiMAX networks ○ From third party 		
AAA server	<ul style="list-style-type: none"> ○ Enables Network Entry ○ Authentication, Authorization, Accounting ○ Complementary to BWG-IS 		

BMAX-4M Base Station Installation Example

- **Suits for Mobile WiMAX deployments**
 - Dense-Urban / Urban / Suburban / Rural
- **Modular, supporting up to carriers:**
 - 3 sectors w/ 2 carriers
- **Always Support 2nd and 4th order diversity**
- **Carrier Grade Resiliency**
 - Hot swappable functionality
 - Centralized management
 - Design for full redundancy
- **Local and remote management**

48 Outdoor unit - ODU

48

- Designed to support world wide frequencies
- Attached or detached antenna
- 1RX / 1TX, 34-36dbm, up to 10Mhz, models:
 - 2.3Ghz ROW / WCS for US
 - 2.5Ghz , 2 models, each is 100MHz
 - 3.5Ghz, 4 models, each is 50Mhz
- 2 Rx /1TX 37-39dbm, up to 10Mhz, models:
 - 3.5Ghz – 1 model, supporting 200MHz
- 4 Rx /2TX 37-39dbm, up to 20Mhz variety of models:
 - 2.3Ghz ROW / WCS (future)
 - 2.5Ghz, BW
 - 3.5Ghz, BW
- Fully outdoor
- Optional an add-on H bracket for easy deployment

7

CPEs and End-user devices

- **Beceem and GCT based – from BreezeMax release V2.0 (Q2'08)**
- **Intel based –**
 - 802.16e pre-certified - from BreezeMax release V1.0 (Q1'07)
 - 802.16e certified - from BreezeMax release V2.5 (Q3'08)

Intel Fix/Nomadic

Beceem Fix/Nomadic

Beceem/GCT Nomadic/Mobile

Products Overview

Mobile

Residential & SOHO

Corporate

- **Designed for WiMAX 802.16e mobile users**
- **Wave 1 certified, Wave 2 ready**
- **Self installable and self configurable**
- **Data Throughput:**
 - 7Mbps downlink and 2Mbps uplink for 64k packets
- **Based on Beceem BCS200 dual band chipset**
- **Frequency support**
 - 2.3,2.5 and 3.5Ghz
- **Key features**
 - Max transmit power 23dbm
 - OS support – WinXP & Vista
 - Cardbus interface
 - EAP-AKA, EAP-TLS and EAP-TTLS authentication support
 - Connection Manager Application

- **Designed for WiMAX certified 802.16e fixed and nomadic users**
- **Basic and Low cost CPE**
- **Based on GCT chipset**
- **Designed for residential users with single Desktop PC**
- **Small form factor – can carry it in your bag...**
- **Bridge capabilities**
 - Same features set as PC card
- **Frequency support**
 - 2.3,2.5 and 3.5Ghz
