Agenda

1. Institute for the Future of Education
2. IFE Data Hub
3. Management of IFE collections and datasets within the Dataverse Platform
4. Data Mobilization Methodology
5. Overview of Data Collections
6. Data-driven Calls for Proposals
7. Results
 - a. Methodology
 - b. Calls for proposals
8. Conclusions
9. IFE Data Hub Team

Institute
for the Future
of Education

Living Lab
& Data Hub

Key challenges

- Skills development for the industry and its workforce.
- High-quality educational opportunities for all.
- Attraction and engagement in teaching and learning.
- Competency-based education and lifelong learning.
- Convenient and affordable education.

Offering services to

- Researchers
- Faculty members
- Entrepreneurs (EdTech)
- Companies (EdTech)
- Lifelong learners
- Workforce (industry)
- Students (higher education)

IFE Data Hub

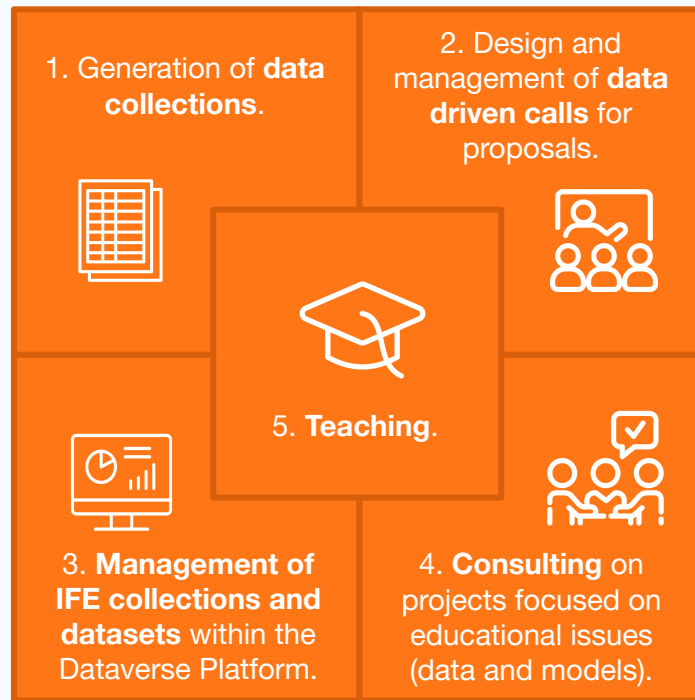

The IFE Data Hub promotes data-based educational research using Statistics and Artificial Intelligence, by providing **access to institutional data** collections to members of Tecnológico de Monterrey, as well as international researchers in collaboration with [our researchers](#).

We generate value for educational institutions, researchers, teachers, students, and academic staff through the development of projects that encourage the **co-creation of models applied to improve education and its processes**.

<https://ifeldh.tec.mx/en/data-hub>

We currently offer these **products and services**:

Management of IFE collections and datasets within the Dataverse Platform

The Institute for the Future of Education offers an open data repository, accessible to members of the Tecnológico de Monterrey and international researchers who wish to conduct educational research in collaboration with us. This repository contains two types of **Collection** which can only be accessed by researchers from Tecnológico de Monterrey, and a **Public collection** which offers data that can be downloaded by any researcher.

 Dataset on Higher Education Students' Profiles with Social Commitment
Mar 11, 2024 - Educational Innovation

 IFE Data Hub, 2024. "Dataset on Higher Education Students' Profiles with Social Commitment".
<https://doi.org/10.57687/FK2/UFM2QH>, Tecnológico de Monterrey, V...

The dataset includes anonymized information related to undergraduate students in the Tomorrow's Program at Tecnológico de Monterrey in Mexico from August-December 2023-2024 cohorts). Among the data categories available in this...

Management of IFE collections and datasets within the Dataverse Platform

Data Request

Review of two files:

- Data Dictionary
- Data Teaser

Review/Validation of the data request

Sending the requested dataset

IFE-CH Dataset Request Template Example	
Personal Information	
Title:	Dr.
First Name:	Juan
Last Name:	Agaric Martinez
Institution:	Tecnológico de Monterrey
Campus:	Monterrey
Position:	Professor - Researcher
Department:	School of Engineering
City:	Monterrey
State:	Nuevo León
Country:	Mexico
Institutional E-mail:	juan-agaric@tec.mx
Secondary E-mail:	juan-agaric@outlook.com
ORCID:	1010-0002-0472-0641
Supplementary Link:	https://www.linkedin.com/in/juan-agaric
Personal Declarations	
"I have no competing interests with Tecnológico de Monterrey"	Yes
"I reserve the use of the requested dataset solely for educational research purposes"	Yes
"I agree not to use the requested dataset to speak on behalf of Tecnológico de Monterrey"	Yes
"I agree to acknowledge the IFE Data Hub as the owner and provider of requested dataset"	Yes
"I have read and agree for the terms and conditions of the IFE Data Hub"	Yes
Dataset General Details	
Requested dataset:	Example: Students (prefix and academic history)
Dataset period:	2014-2020
How did you find out about this dataset?	<input type="checkbox"/> Research Data Hub (rdfm) http://datahub.tec.mx/ <input type="checkbox"/> Data Descriptor https://doi.org/10.33044/revista3.1265119 <input type="checkbox"/> Data Hub Promotion Workshops/Seminars/Meetings <input type="checkbox"/> Other (specify):
Project General Details	
Abstract:	
Keywords:	
Dataset Variable Selection and Request Submission	
Instructions: Please type an X to be required in the data teaser/lexicalization tab of the requested dataset (e.g. Student ID, Academic Period, GPA, No. of Enrolled Courses, Type of Enrichment, etc.). This way we can make sure you receive the specific data required for your educational research purposes.	
Finally, when submitting your dataset request via e-mail, make sure you attach the required data teaser file along with this complete dataset request template.

Data Mobilization Methodology

Derived Dataset

Curated dataset focused on an educational challenge. The construction of the dataset is supported by expert researchers in the area.

Raw Data

Primary data of the Departments.

Use Case-specific Dataset

Sharing and reusing of the dataset through:

1. Data-driven calls for proposals.
2. Data descriptor (using the DOI enabled in the Dataverse Platform).

Harmonized and Clean Data

Structured, anonymized, validated, and documented data collections.

Overview of Data Collections

The **Data Hub** facilitates **research** by being a single point of contact that **provides validated data** (directly with specialists from the Institution) from different data collections **in a single request**.

The collections count on **anonymized, updated, and documented data**.

 Available upon Request		Review in Process
1) Student	11) Admissions (Students)	80th Anniversary Survey
2) Student - Courses	12) Coursera (Lifelong Learning)	ITESM Continuing Education
3) Exams	13) LinkedIn Learning (Lifelong Learning)	Tec Job Board
4) Graduates	14) Leaders of Tomorrow's Program	Coursera (supplement)
5) Professor	15) Tec Milenio	Healthy Minds Study (HMS) LiFE
6) Professor - Courses	16) LiFE (Leadership and Student Education)	
7) Group - Courses	17) Employability Survey	
8) Student Opinion Survey (ECO)	18) Professor-Researcher Production	
9) Competencies	19) NPFC-Test 23A	
10) eLumen/Canvas	20) PM-KIMEN 24A

Data-driven Calls for Proposals

Data-driven calls are **academically powered projects** by the **Tecnológico de Monterrey departments** that seek to carry out (further) **research, analysis, and development with their data**. When formalizing a collaboration agreement, an innovative cycle is followed.

Results: Calls for proposals

1) Predicting and Countering Student Dropout in Higher Education (Closed)

Year	Internal Collaboration	# Participants	# Resulting Articles
2021	Analytics and Business Intelligence Department, Tecnologico de Monterrey	Teams: 11 Researchers: 31	Eleven (One Data Descriptor)

2) Analysis of Competency-based Higher Education (Closed)

Year	Internal Collaboration	# Participants	# Resulting Articles
2022	Innovation in Educational Technology, and School Management Departments, Tecnologico de Monterrey	Teams: 18 Researchers: 61	Five (+ two in press)

3) Analysis of Higher Education Students' Profiles with Social Commitment (Closed)

Year	Internal Collaboration	# Participants	# Resulting Articles
2023	Leaders of Tomorrow's Program, School Management, LiFE National Management, and National Certification and SEP Regulations, Tecnologico de Monterrey	Teams: 13 Researchers: 43	Three (+ three in press)

Conclusions

- From the IFE Data Hub initiative, **the data is in a machine-readable format and available in an online repository (Dataverse Platform)** that allows its open access and long-term archiving following the Findable, Accessible, Interoperable, and Reusable (**FAIR**) principles.
- Our **data mobilization strategy** has allowed us to generate **calls for proposals through data collections, promoting Educational Innovation and encouraging scientific publications based on the curated datasets**. Furthermore, the publication of a **Data Descriptor on these datasets** has also contributed to sharing this data, resulting in a total of **34 data requests in 2022, increasing to 48 and 35 in 2023 and 2024, respectively**.
- Finally, based on these calls for proposals and requests, **nineteen research articles have been published in Journals (Q1/Q2) and indexed Conferences**, demonstrating the success of our initiative after three years of being launched.
